RE: Request to treat hazardous waste on-site
Whayne Supply Company
Louisville, Jefferson County, Kentucky
EPA ID # KYD-006-945-802

Dear Mr. Stephenson:

The Kentucky Division of Waste Management received a July 29, 2002 and September 5, 2002 request for approval for on-site treatment of hazardous waste as a generator. Whayne Supply Company proposed to treat hazardous waste by operating a waste water evaporator for their dip tank waste in accordance with 410 KAR 32:030 Section 6.

The Division has reviewed your request and the supporting information. The information demonstrates that the operating conditions are protective of human health and the environment. The Division hereby approves your request with the following conditions:

1. Whayne Supply Company shall not treat more than five (5) gallons of dip tank wastewater per hour.
2. The unit shall not operate for more than forty (40) hours per week. This time shall exclude the time required for the system to "heat-up" to a boiling temperature of 210°F, with heat-up not to exceed 3 (three) hours per day.
3. The unit shall be operated and maintained according to manufacturer's specifications.
4. The approved treatment tank for the wastewater evaporator is subject to the closure requirements under Sections 2 and 5 of 401 KAR 34:070. Whayne Supply Company shall notify the Division 45 days prior to initiating the closure of the regulated unit.
